

On Wednesdays from 3:30 - 6:00 we provide a free **Open Access** lab.

We open our facilities to allow individuals of varying ages with disabilities to access the Internet, play games and access their email, try out different assistive technology products. On the last Wednesday of every month we have guest speakers and come and present on a variety of topics. Some of the topics in the past have included: On-line Banking, Job Development, Career and Education Coaching. If you would like to become a presenter please contact: JoanElaine Anderson
